EDUCATION

Bachelor of Science in Economics, University of Lagos, Akoka, Lagos, Nigeria -- October 2021

PROFESSIONAL SUMMARY

Full-stack Software Engineer with experience building scalable and efficient web applications using Java, Spring Boot, React, and PostgreSQL. Proficient in crafting responsive designs, developing secure APIs, and collaborating with cross-functional teams to deliver user-centric solutions. Adept at managing projects, ensuring seamless integration between frontend and backend, and leveraging technical expertise to drive impactful outcomes.

SKILLS SUMMARY

- **Frontend:** HTML, CSS, Javascript, React
- **Backend:** Java, Spring Boot, RESTful APIs
- **Database:** MySQL, PostgreSQL(pgAdmin)
- **Tools:** Git, GitHub, Postman, Jira, Maven, Docker
- **Platforms:** Visual Studio Code, IntelliJ IDEA
- **Soft Skills:** Stakeholder Management, Team Collaboration, Problem Solving, Effective Communication, Leadership, Emotional Intelligence

WORK EXPERIENCE

Software Engineer

Limitflex Limited, London, United Kingdom – January 2025 - Present

Associate Software Engineer

Decagon -- January 2024 - January 2025

- Collaborated with engineers to implement scalable technical designs and requirements for web applications.
- Managed code documentation and version control, ensuring streamlined collaboration and updates.
- Developed efficient, scalable, and maintainable real-time web applications.
- Enhanced client-side experiences through cross-functional collaboration, improving functionality and performance.

Energy and Natural Resources Intern

KPMG Nigeria -- February 2022 - November 2022

- Conducted audit engagements and prepared comprehensive reports on findings.
- Participated in client meetings, gathering insights to refine audit procedures.
- Reviewed financial documents for compliance and accuracy, identifying areas for improvement.
- Assisted in performing risk assessments and internal control evaluations.

Compliance KYC Intern

Guaranty Trust Bank Plc -- January 2020 - March 2020

- Evaluated risk for over 100 customer classes, offering strategic recommendations for mitigation.
- Ensured compliance with KYC processes and maintained high-risk client databases.
- Delivered presentations and implemented process improvements for the non-resident Nigerian (NRN) project.

PROJECTS

Farm Application (IFARMR) -- December 2024 - January 2025

[Link](#)

- Designed and implemented a responsive landing page to improve user engagement.
- Developed secure and efficient user registration endpoints using Java, Spring Boot, and Postman.
- Created RESTful APIs to fetch and display user-specific crop and livestock data.
- Collaborated with team members to ensure seamless integration of backend services with the frontend interface.

Banking App (Demo) -- October 2024 - November 2024

- Implemented repositories to facilitate CRUD operations and database queries.
- Developed functionality to send personalized PDF bank statements to users via email using JavaMail.
- Ensured secure and personalized email communication by integrating dynamic content such as user details and account summaries.

Sports Festival, University of Lagos -- August 2017 - November 2019

- Coordinated teams to organize sports festivals at departmental and faculty levels, achieving record attendance of over 600 participants and a 10% increase in spectators year-on-year.
- Secured over #800,000 in cash and in-kind sponsorships through negotiation and proposal development.
- Managed the participation of over 100 students in faculty-level events, leading to the department being crowned overall champion.
- Led a team of 25 to victory in the vice-chancellor's Cup competition.

VOLUNTEER ACTIVITIES

- Tutored Economics and Mathematics students for WAEC and JAMB at Climax Academy.
- Directed the King Jaja Hostel Hall Week (2018 & 2019 editions), University of Lagos.
- Headed the logistics unit for Nesa Expedition Conference (5.0 & 6.0 editions).

CERTIFICATES

- Introduction to Front-end Development -- Meta
- Java 17 Masterclass -- Udemy
- Foundations: ALX Software Engineering
- Introduction to Javascript -- Meta

AWARDS

- Most Influential Student Award, Department of Economics, University of Lagos -- October 2019.
- Outstanding Leadership Award, University of Lagos -- October 2018 – October 2019.
- Sport Personality of the year, Faculty of Social Sciences, University of Lagos -- October 2018.
- Sophomore of the Year, Department of Economics, University of Lagos -- August 2017.
